LuxeVision ipMerge Recognized in Annual NTCA Hot Technologies Exhibit

LEIGHTRONIX IPTV Technology Highlighted at Show for Industry Innovations

Holt, MI — February 7, 2014 — LEIGHTRONIX was acknowledged at the NTCA Annual Meeting & Expo at the San Antonio Marriott Rivercenter in San Antonio, TX on February 4 for their innovations in the rural telecom industry. LEIGHTRONIX was one of six exhibitors out of over 100 at the show chosen to showcase within the exclusive “Hot Technologies 2014” area. Showcased exhibitors were chosen for having an innovative product or service in the rural telecom industry that had been introduced or significantly improved upon within the last 12 months.

LEIGHTRONIX’s exhibit showcased their all-in-one IPTV solution LuxeVision ipMerge™. The product breaks price barriers as the first all-in-one IPTV solution starting at under \$20,000. The LuxeVision ipMerge platform is designed for situations where a small to medium number of TV end points are required. LuxeVision ipMerge starts at 50 TV end points and can support up to 500 end points within a single system, providing an all-in-one solution that includes an application server with customizable middleware, a multi-channel video-on-demand server, and a multi-channel multicast server within a one rack unit platform.

The LuxeVision ipMerge solution is designed to integrate with one or a combination of transport technologies, allowing providers to utilize their existing Ethernet and DSL/PON infrastructures.

About LEIGHTRONIX, INC.

LEIGHTRONIX is recognized as an industry leader in specialty video equipment design and manufacturing, including digital video solutions, television automation, live and video-on-demand streaming media, IPTV, and remote equipment control. A model of stability and longevity in the quickly evolving professional video market, LEIGHTRONIX continues to set standards in product value and versatility that exceed customer expectations in both product performance and support.
